KP5/NP3VI Desecheo Island -March 3 now QRT

Earlier today (local morning), KP5/NP3VI went QRT. Almost 110K QSOs in the log using a couple of pelican cases, solar panels, batteries, Starlink and Remote Ham Radio technology.

VP0SG South Georgia Island -update

ARDXpeditions is now actively fundraising for the VP0SG South Georgia DXpedition. Your contribution will directly support vessel charter, transport, permits, fuel, and essential equipment for this major operation. If you would like to support the project, you can donate securely via PayPal at this [link](#). Every contribution — large or small — helps bring VP0SG on the air for the global amateur radio community. Thank you for your support.

ZC4C and ZC4Z Cyprus SBA -CANCELLED

by Billy, GM6DX. Unless you are getting over on a military aircraft then you can't get to SBA currently, hence the ZC4Z and ZC4C trip is cancelled currently.

J51A Guinea Bissau -update March 4 and video

142,200 QSOs and 26,600 different callsigns after 8.91 days of operation (1300Z). Still 11 days to go.

Yesterday we repaired the neighbor's water pump which was full of sand and the motor was stuck. As a bad coincidence that problem had only started after the neighbor was kind enough to let us stop their solar power system..Unfortunately that construction is a big mess and we told them that the problem can come back at any time, because the water level in the dwell is simply too low and the pump is sitting too close to the bottom.

There was not any 6 meters opening yesterday. Today it may look better again.

All bands are progressing well and we will put more time on 60/CW, 40/CW, 40/SSB for example.

We will also start 80/SSB some time. However, we will not offer 160/SSB and 60/SSB.

5W0AF Samoa by Jacek SP5EAQ -update

In less than three weeks, I am scheduled to fly with Qatar Airways to Doha, then on to Brisbane, and finally to Apia to activate 5W0AF. Since then, the geopolitical situation has changed significantly. The airspace of several countries, including Qatar, has been closed, and even if it reopens soon, there is no certainty that the situation will remain stable. Because of this, I may need to consider postponing my DXpedition until autumn. That would be a very difficult decision. The tickets are purchased, the accommodation is prepaid, and all arrangements are in place. I will take a few more days to decide.

CY0S Sable Island -update

All preparations have been completed for the CY0S DXpedition. The team focused on prepping the guy rings for the Yagi antenna mast sections. All guy rings have four rope guys attached to them. It is much easier to do this now than in the 40 knot winds on Sable. It has been a very challenging, but typical, winter on Sable with high winds and surf. Wind gusts of 50-60 knots were experienced earlier this week, in yet another storm system. In preparation for the frequent 40-50 knot winds, the team reinforced the guying system on all antenna masts/Spider Poles. All 42-inch guy anchors were inspected, and any questionable anchors were replaced. Each anchor has a pre-installed galvanized eye bolt near the top of the anchor. The team is in constant contact with Parks Canada as to conditions on the island.

THE NEWCOMERS

ASIA

AS-169 Arnala Isl The AU2M operation from Arnala Island (cancelled last year) has been rescheduled for May 1-3. This IOTA group was activated back 2004 and 2006, and has been silent ever since. More information is expected in due course.

SOUTH AMERICA

SA-019 Abrolhos Isl Renato, PY8WW informs: *we are currently coordinating with the Brazilian Navy, there is a strong possibility that a Brazilian team will be active from Abrolhos Island, SA-019, later this year, possibly in November. More details regarding callsigns, bands, and modes will be shared as soon as the plans are finalized. Stay tuned for updates, and we hope to work many of you from this beautiful IOTA location!*

SA-093 Tutumate Isl Renato, PY8WW will be operating as HK4/call on May 9-15. "CW and SSB remain my main focus", he says, with FT8 as "just a tool for those difficult moments when propagation doesn't cooperate". More information is expected in due course. This IOTA group was activated only once, by HK3JJH/4 back in 2002.

THE REMINDERS

AFRICA

AF-084 Abokwa Isl Silvano I2YSB let us know that the Italian DXpedition Team will be active from Abokwa Island (AF-084), Ghana, during the first half of April as 9G5CC, 9G5RR and 9G5ZP. The setup is a 21Mhz VDA, an Elecraft K3 and KPA500 amp with a 3KW generator. Planned frequencies are 21.043 CW, 21.260 SSB, FT8 will start on 21.096.

ASIA

McMurdo Station, Ross Island by Andrew KC4/KL5SE

My 11th season to McMurdo Station, Antarctica. I'll be operating from there as **KC4USV** and as **KC4/KL5SE** from field camps nearby during the 2025-2026 Austral summer season.

So far activity has been from:

Keep an eye on Andrew's QRZ [page](#) for further updates.

Neumayer Station

New ham operator Lasse, DL9LU is active during the entire winter as DP0GVN until December 2026. QSL via OQRS.

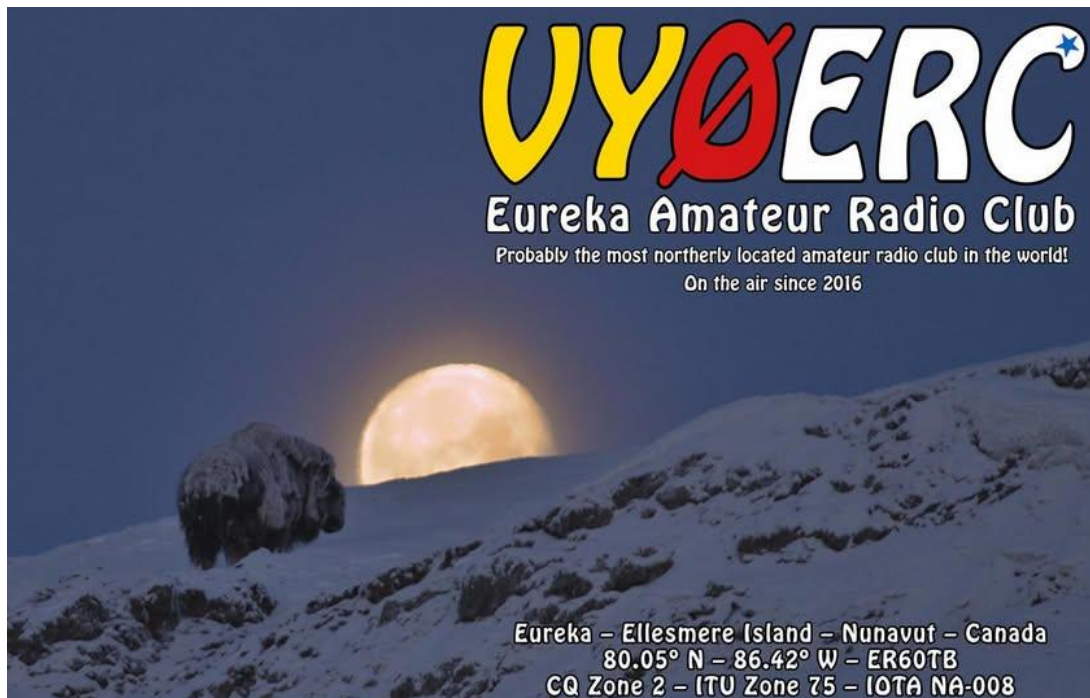

Vostok base by Alex UG1A

After Vostok, says Frank (F8DVD), there's a possibility that Alex will go to Ridge B and operate from there. Nothing is certain about that yet so more info later. However, it would be an ATNO for the Worldwide Antarctic Program (WAP) and Polar DX Challenge as Ridge B has never been activated before.

A new callsign have been assigned to Alex for all operations during this season: RI1ANI.

Since 2007, Alex was very active from Progress and Vostok base, mostly in CW but also in SSB with many calls such as R1ANC, R1ANP, RI1ANC, RI1ANV, RI30ANT.

NOTE: Ridge B is one of the least studied areas in Antarctica but has been considered to be a potential location for the oldest ice on Earth. In January 2020, the first scientific traverse from Russia's Vostok Station to the topographical dome of Ridge B was carried out. Ridge B (Dome B) is 3807m above sea level, 79.02°S, 93.69°E).

Never give up!

Kevin, WA2AEY says:

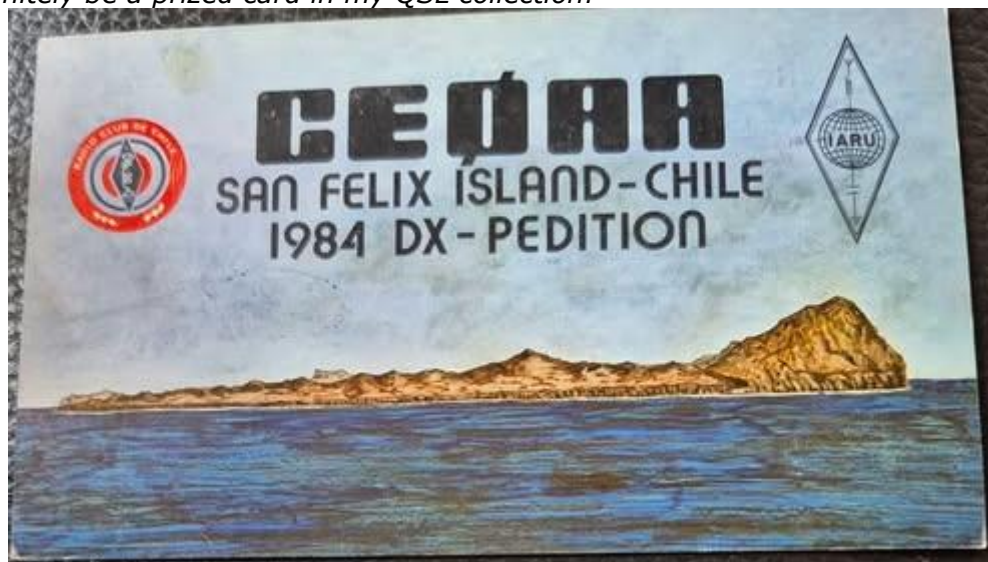

"Received this rare one today, 42 years after the QSO.

Last year, I digitized 56 years worth of paper logs. I was amazed at the countries I had not gotten confirmed years ago.

Over the course of many months and many emails, Danilo XQ4CW helped me to get this rare one confirmed!

This is the fifth and most likely last of my recently confirmed contacts from the 80s.

This will definitely be a prized card in my QSL collection!"

OZ, DENMARK Look for **OZ1000Z** to celebrate the 100th anniversary of the first legal Danish amateur radio license. In March 1926, the Ministry of Public Works finally decided to give experimental Danish amateurs access to build and operate private radio transmitting stations on a legal basis. Thus, Børge Jørgensen OZ7BJ and James Steffensen OZ7JS became the first two Danish radio amateurs to be issued a valid Danish broadcasting license and this happened in March 1926 - 100 years ago.

Operation from March 1 until March 8. See [Kalender for OZ1000Z](#) (TNX 425DX)
